Select Energy Services Adds to Eagle Ford Presence

October 15, 2010 - Select Energy Services, LLC ("Select"), an oilfield service and supply company headquartered in Gainesville, TX, today announced the acquisition of Alice Southern Equipment Service, Inc.

Alice Southern Equipment Service ("ASE") is a family owned oilfield service company based in Alice, Texas, that primarily provides water management services, including water transfer, poly pipe sales & rental, sourcing frac water, and water well management to customers in the Eagle Ford shale. ASE was founded in 1974 by Ivan Pierce and has long standing customer relationships with a number of operators in the area including Anadarko Petroleum, Devon Energy, EnCana Oil & Gas, EOG Resources, Rosetta Resources, and SM Energy. ASE has operations throughout South Texas, including operations in: Alice, Bryan, Carrizo Springs, Kenedy, Laredo, and McAllen.

The Alice Southern acquisition will enable Select Energy Services to actively expand its service presence in the Eagle Ford, with a particular focus on its fluid management division. Select will continue to expand ASE's operations and provide the necessary capital to grow ASE's service lines. The acquisition of Alice Southern will add 136 employees to the Select Energy Services organization.

John Schmitz, CEO of Select, said, "Alice Southern is an established and highly regarded service provider in an active and exciting market. ASE will double our revenue in the Eagle Ford and we are very excited about this new partnership and look forward to growing Select's South Texas operations together."

Shay Pierce, CEO of Alice Southern, adds, "This is a great day for the ASE family. We are delighted to become part of Select and look forward to the opportunities this relationship will create." Mr. Pierce will continue to run ASE's operations within Select.

Select Energy Services, LLC is an oil service company with operations in the Barnett, Haynesville, Fayetteville, Woodford, Eagle Ford and Marcellus shale formations. The company

primarily provides water transfer, well testing, fluid hauling, dirt & pipeline construction, field services, accommodations & rentals, rig moving and other heavy haul logistical services. For more information, please visit www.selectenergyservices.com.
